EDUCATION

- Institute of Engineering and Technology** Lucknow, India
Bachelor of Technology - Information Technology; GPA: 9.03 Aug 2019 - till present
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Machine Learning, Discrete Mathematics, DBMS
- S.D. Public School** Muzaffarnagar, India
Intermediate- 12th; Percentage: 93.4% 2018-19
High School- 10th; CGPA: 10 2016-17

EXPERIENCE

- Altair Engineering** Remote
Software Developer Intern July 2022 - Present
 - Implemented Frontend Components for various projects using like React, Redux
 - Implemented Draggable trello components to make a kanban Board.
 - Involved in Design, Development, Documentation and Testing of the APIs for client's Portal.
 - Tech used- HTML , Bootstrap , Javascript , React , Redux,:**
- Bytelearn** Remote
Software Engineer Intern May 2022 - July 2022
 - Implementation of the multiple new categories for the backend server support to the chatbot.
 - Implemented UI and logical function in python to support the jinja implemented categories with unit test cases.
 - Used templating architecture, with jinja as templating language, to implement categories.
 - Tech used- Jinja , HTML , Python, Git ,Jira,Javascript:**

PROJECTS

- Dev Connector** October 2021
 - A FullStack Responsive Social Networking Website designed with an idea to connect the developers community
 - User should be authenticated to create their profiles. A user can add or delete their experiences and education.
 - User can Update or Delete their Profile and can change their DP dynamically. Credentials of a user are secured using PassportJS
 - A user can post a picture or comment on any other user's post or like/unlike a post.
 - The design used for the site is very intuitive and modern, which can be used by both beginners and advanced
 - TECH STACK- Mongoose, Express, React, Nodejs, Git (Repository Link)**
- Time-Table Management System** December 2021
 - A FullStack Responsive Website designed with an idea to maintain the schedule of Lectures
 - To Schedule a Lecture User should be Authenticated via a registered email id with the institute.
 - Only Authenticated Users can Schedule A lecture , Delete or Update the lectures
 - Schedules are order on the basis of Date and Time. A User can fetch The scheduled lectures of a respective branch
 - TECH STACK- MySQL, Express, React, Nodejs, Git (Repository Link)**

ACHIEVEMENTS

- Expert** on Codeforces (max **1719**) (**Profile Link**)
- 6 Star** on Codechef (max **2210**) (**Profile Link**)
- Best Rank **239** on Codeforces among **12000+** contestants in Round 732 (**Div 2**)
- Ranked **1409, 1976, 1195, 1121** among **10000+** participants in round **D, F, G, H** of (**Kickstart 2021**)
- Solved **1000+** problems on various Coding Platforms. (**StopStalk**)
- Participated in Snackdown 2021 Pre-Elimination Round (**Snackdown 2021**)
- Ranked **Under 200** among **5000+** participants in (**CodeKaze 2021**)

SKILLS SUMMARY

- Languages:** C, C++, JavaScript, Python
- Programming:** Data Structures and Algorithm , Problem Solving, OOPs
- Tech Stack:** NodeJS, Flutter, Mongo, MySQL, Express
